

Pivatic Multitool Adapter, PivaMTA

Add-on for your tool station.

PivaMTA 5A-D

5 x standard A-tool in D-station

PivaMTA 7A-E

7 x standard A-tool in E-station

PivaMTA 3B-E

3 x standard B-tool in E-station

PivaMTA 5B-F

5 x standard B-tool in F-station

PivaMTA solution allows you to load several A- or B-tools to your D-, E- or F-stations, increasing your tooling capacity and flexibility, and reducing your setup times.

Faster run times - performing multiple punches with each setup speeds run times drastically, resulting in increasing throughput and greater productivity.

Less downtime - several punches with one setup reduces the number of tool changes your operators make in the course of a run.
